

## Roma

Roma offers clients the best of a contemporary plush dining chair where frames traditionally manufactured from Wood are replaced by Aluminium. Offering lightweight benefits and fully welded frames that do not break, rock or fail like traditional wooden frames.

An elegant chair that is both timeless and classic in appearance.

## Seating & Comfort

Deep seating offers guests the best seats in the house. Polyurethane Moulded Seats will not sink unlike traditional foam

Backrests are large and plush with an extra wide backrest. Backrest are curved Vertically and Horizontally enhancing comfort further.

## Curvaceous Handcraft

Each Aluminium Chair by Dheensay is a Handcrafted product to ensure the best attention to detail is given. A tradition that continues to this day.

This applies for Roma as well where each Bend, Curve and Weld on our frames are fully Handcrafted.

The result is a chair that is unique in appearance, and a better detailed product.

## Wide & Frameless

Roma has a backrest that is frameless and elegant. A fully upholstered backrest that reveals no exposed frame.

Backrests for Roma are also extra wide at  
than traditional 407mm Backrest widths. Excellent  
for dining

## ALUMINIUM BANQUET CHAIR BCA 691
